I am writing this letter of recommendation for Sparkman Medical Data Processing. I called Sparkman Medical Data Processing because I was experiencing cash flow problems with my practice.

Rusty Sparkman, the President of S.M.D.P., came to my office the next day after I contacted his company. We discussed how S.M.D.P. could assist me with the collection of the outstanding accounts receivable as well as the current billing for my business.

Within the first 30 days I began to receive payments from S.M.D.P.'s work on my outstanding accounts receivable. A major amount of revenue was collected and helped me save my business with the increased cash flow.

I would highly recommend S.M.D.P. for all Chiropractor or Medical Provider practices.

Sincerely;

A handwritten signature in cursive script that reads "Belinda Pate".
