To Whom It May Concern:

I have worked with S.M.D.P. Inc. for several years. The staff at S.M.D.P. Inc. has always been helpful and quick to answer any concerns we may have. My practice has been changing over the years and S.M.D.P. Inc. have been a great help with proper billing information for the new services my practice provides to our patients.

Over the years I have observed the growth of S.M.D.P. Inc. The principle owners continually look for better and improved ways to collect our outstanding accounts receivable. When they decided to join ProviderLAW I was pleasantly surprised. I had already become a member of ProviderLAW but S.M.D.P. Inc. did not know I had joined. This is just an example of the type of services S.M.D.P. Inc. continually looks for in order to better serve their clients.

Since S.M.D.P. Inc. is a full service billing company I would highly recommend their company to any Professional Provider.

Sincerely;

Gerred Popejoy D.C.
